We had a good week talking all about the changes we see during spring time, it was wonderful that the weather worked in our favor! Thank you to everyone who came to conferences on Thursday, it was nice to meet and talk about your wonderful children!

Focus Question - What is your favorite thing about spring?

This week we are talking about Earth Day. We are doing some fun experiments and talking about ways we can take care of the earth. We will be cleaning up the playground as a class and we have an all school planting day planned this Thursday, weather permitting. It will be from 11-12 and parents are welcome to stop by and help facilitate!

Ms. Melissa and I will not be in the classroom on Thursday. Ms. Liz and Ms. Amina will be working with the kids if you need anything that day!
